

Cambridge Connections feedback form

What we want to know from you

We've completed technical studies and analysis to understand how people move around Cambridge.

Before we prepare a draft transport plan, we want to know:

- Does our understanding match your experience?
- Have we missed anything?
- What information would help you take part in consultation this October?

For more information, view the technical studies and analysis report at:
letstalk.waipadc.govt.nz/cambridge-connections/august-september-2026-feedback

Share your thoughts by answering the following questions

1) Does what the technical work shows match what you see on these roads today?

Tell us about specific locations in Cambridge and share any relevant feedback, including:

- what the technical work gets right
- what it misses
- any location-specific issues or opportunities

See next page for more questions >

We'd also like your thoughts on the bigger picture.

2) Is there an issue or idea we haven't looked at yet?

3) As we prepare for consultation in October, what information would help you understand the transport plan and provide feedback?

4) Anything else you'd like us to know?

Once the form is completed, please:

- Email it to: cambridgeconnections@waipadc.govt.nz | Subject: Cambridge Connections September 2026 Feedback
- Drop it off to a Council office: 101 Bank Street, Te Awamutu or 23 Wilson Street, Cambridge
