

Cambridge Connections

draft Transport Plan

We've been working with you to understand what matters most, and now we want your feedback on the draft Transport Plan for the next 30 years. The survey is open until 5pm Sunday, November 22.

Have your say

1) Public transport

Would the improvements to public transport in the draft Transport Plan make it easier to leave your car at home more often? If not, what would?

2) Walking and cycling

Would the activities outlined in the plan make it easier and safer for you to walk, cycle or scoot around Cambridge? If not, what would?

3) Parking

How well do you think parking currently works in Cambridge, and what would you change?

4) Key corridors

We think work to improve corridor one (Pope Terrace, Cook Street and Shakespeare Street) and corridor three (Victoria Street, between Queen Street and Hamilton Road) are the priorities over the next three years. Do you agree and if so, why? If not, what corridor do you think is the highest priority?

5) Preferred bridge corridor

What are your thoughts on a mid-west corridor as the potential location for any future bridge? The possible corridor would connect the Cambridge West growth area with the eastern side of the Waikato River.

6) Bridge pathways

There are two bridge pathways we can consider. Pathway 1 is to build a third bridge. Pathway 2 is to upgrade existing bridges. What pathway would you choose and why?

7) What other feedback would you like to give on the draft Transport Plan?
